Calydras is a space planet that we always find ourselves in danger. Then they removed the land of Calydra and all of us were forced to evolve in space and look for a new path. We travel in space and must overcome all dangers from space in order to find a new place to live. Controls: Controls: - Fire = Movement/Direction - Gui = Interaction/Class Abilities - Spacebar = Jump - Right click = Attack - Left Click = / - Jump button = + - And with the W to interact with objects Calydras is a free game for you! Enjoying the game? Please consider leaving a review! Made with this template: the game with Google Play - Unlock your ship for completing some quests. Overall your mission is to collect as many gems as possible to your ship. Some gems are worth more than others, but regardless of what you collect, your goal is to collect every gem you can find. You can jump and land on any space by touching the surface. When you jump on a surface on which you can jump, you can do a quick left or right jump, however, when you jump, you will immediately teleport to the surface in front of the ship. When you jump, there is a probability that you will land on the surface and not space or vice versa. As you collect gems from surfaces you will collect coins. These coins will allow you to purchase upgrades for your ship. Ship upgrades are made up of power-ups, speed-up-ups, power-increase-ups, speed-increase-ups, and shields. You can purchase all of these upgrades for your ship at any time. You can also buy these upgrades with the money you collect from finding gems, so it is important to collect as many gems as possible to acquire more coins to purchase upgrades. Collect gems in any manner you see fit, however, if you find yourself in an area where you cannot jump and come across a surface with a gem you can either jump on the surface with a space bar and landing on another surface, or you can jump directly into an area, this requires you to purchase a power-up first. The overall goal of the game is to collect as many gems as possible within a certain amount of time. Controls: Touch

"STREETS DON'T TURN" is a massively multiplayer action/racing game in which players compete in a world filled with classic trucks, real-life cities and rich trucking economies. Players progress through the game by completing missions, driving through a huge, open-world trucking network and racing to become the Truckin' King (and queen). Starting your career as a rookie driver and climbing up the ranks, take over the biggest trucking city in the real world with over 70 different trucks to own, repair and customize. • Race in daily missions. • Speed race for cash in timed races. • Complete monthly mission tasks to win cash and bonuses. • Grow as a Truckin' King by being the top driver and racer. • Participate in weekly leagues and tournaments. • Purchase and customize a huge variety of trucks from famous truck manufacturers. • Collect all real-world trucks. • Visit real-world truck stops and rest areas to refuel and do cargo or to check your truck stats. • Visit local truck shops to repair and customize your truck. • Unlock cool truck accessories, such as paint jobs, tuning kits and custom parts. • Win several trucking-related achievements to unlock high-value trucks and tools. • Unlock a trailer that can be used for cargo or as an additional truck. • Manage your truck from a mobile companion app. The game offers a trucking-based economy that allows players to earn virtual cash by transporting cargo in real cities. Over 80 real-world truck stops, rest areas and other locations are part of the trucking network that players can visit. Visit the local Truck Stop Bar in the cities to refuel and have a bite to eat. Players can use the cash they earn to purchase new trucks, upgrades or customize their trucks. Players can customize their trucks in the Truck Stop Bar using the customization tools available. Players can unlock special truck parts using the in-game currency and unlock trucks by winning tournaments and completing missions. Players can drive solo or play the game with a friend in local or online multiplayer. Truckers can play online with their friends on several game platforms including Xbox Live, PSN and the browser (PC/Mac/Linux). This title has been produced by Finnish studio Mad Catz Interactive and is published in Canada by X-Box Game Studios.

The game is developed by Mad Catz Interactive in cooperation with Nordic Games. ST

About This ContentHow did I get so rich? I just sold a girl a lamp. Have you ever heard of the Bermuda Triangle? In 1665, a fleet of ships vanished without a trace. From that point forward, ships have become scarce. Who are the few, and why do they haunt the waters? My theory is that the Bermuda Triangle is the headquarters of a multibillion-dollar secret military space program. They may have gone out of business, or maybe they evolved. But now theyre a threat to the universe. It's time to go beyond the confines of our Earth, beyond the Great Wall of China, to find out what happened to them. Features Include: - S.A.G Uniqueness:An ancient race that gave life to the multiverse, the Sagani all use things that are alive. - Eyes of the Navy:Use 20 different types of military technology to get around the triangle. All of them have a real-life application. - Secret Space Experiments:Gather items to upgrade your ship and unlock new technologies. - Bermuda Triangle Crisis:Only you can solve the mystery. If your familiar with the original Star Fox, this has the same feel to it. You will explore the new game in a series of three worlds, each with a new space to conquer. Each planet is full of challenges and enemies, just like before, but there are new tricks and upgrades available!**FEATURES:-** Three unique planets, including a dogfighting world.- Three modes of play including arcade and missions.- Support for standard and circle controller on PC.- Proximity sensor will let you know when to dodge.*Keyboard controls are not supported. **About This Content**The other day, I caught on my TV and saw a mysterious creature. It was similar to a dog, but much, much smaller. I began to wonder, where could it be from? *Lights up...* And then it hit me! I knew I had to research it! I scoured the Internet for every new thing I could find! And the more I researched, the more I found! Now you can do the same! What's new in BullyBall:

Only 1.5 miles are between the basement of the incinerator tank yard run by the Carp at The Swimming Hole and the Tiger Fighters. What has led to the tragic but interesting scene? [Translated by Yumiko Watanabe] First, I will come up with a hypothesis. We had never failed to observe an alien ship that came to the sea west of the coast. It was, of course, a small craft that no one took any notice of. The craft threw black smoke, and was shaped as an inverted boat. It took on an average of two thirds of the length and width of a normal-shaped life, and might just be thought as a converted destroyer. However, there was a small craft on top of it like a wheelhouse that flew around with telescopic blue-green rays all over the sky. I

have seen three attacks by this ship, but no foreigners were seen anywhere around here. However, we have had witnesses that people had been lined up and shot. However, we still have no evidence. There is a school located here. Someone has been waiting at the location of this school about seven minutes since the ship performed its interesting behavior. However, the owner of the school has not yet explained where the people have disappeared. Also, it was a small craft. So it would be better not to rely too much on witnesses. Next, I will come up with a theory. Up until now, every day we have been to the construction site, while the oddity of this ship was not known. Next day, it was found out that its oddities were in fact it, with a small object on top like a wheelhouse and a small craft on top of that. The small craft flew around the sky. The distance from the ground from this small craft is about two hundred meters. In addition to that, a few people in the underground of the construction would be killed. However, it turned out that the distance from the ground of the small craft had increased to almost a whole kilometer. Next, there was a problem that exceeded a contractor's ability to deal with. Then, the heavy ship
