This article covers Selenon Rising located at the Cayman Islands, an autonomous British overseas territory in the Caribbean Sea. Selenon Rising (or: Providenciales) is an island in the Grand Cayman-island de San Carlos chain of islands. The island is part of the British Overseas Territory of the Cayman Islands and is the largest of the Cayman Islands in terms of land area. It is the second-largest of the three governmental districts of the Cayman Islands. In 2010 the population was 17,409. Can you recommend any way to get this running on mac, as its my main platform? Yes, I can say that the game is in BETA, with many things to be done. The work has been done with the people who have the character developer role. I understand that the textures are not great, still, there is a possibility to fix the textures if I give the credits to the people who worked at that. But yes, the character design and the models is another part of the game. However, the animations is only done by you, the player.
