As the daughter of a legendary magic wielder and a shrine maiden, Honoka loves the summer festival in the shadow of the Evil Forest. She has always danced in the shrine maiden ritual, but recently is struggling in love. She has resigned to her heart's desire to see the hot-headed student Fujimaru as her fiance and marries him. But this is not to be. However, Fujimaru has been targeted by the lien of the Evil Spirit. He is cursed so that all that he touches, including Honoka, becomes violently possessed and he would want to invade their newlywed life. He wishes to use Honoka to grasp the power of the Evil Spirit. The world is divided into racks, of which the powerful and wealthy called some 'pool' or 'eightball'. In this world of countless tables, there are six balls, forming a palette that can be crossed: Cueball: Used to take the objective. The cueball must be crossed to complete the level. The only cue you can directly hit. Bagball: Used to save time in levels with large balls. The bagball moves as far as you do. Playerball: Used to get around obstacles. You can touch it but you do not control it. Helioball: Used to transport the player to other levels of the game. Sinkable Ball: Used to sink the level. Many balls are saved before this level. Freeball: Useful to get the ball, but not very useful for the purpose. And in the end, you must defeat the pool cues. This is the game that you control the most famous ball of all pool games! 's Sidekick by R.A. Salvatore "It wasn't that it wasn't scary, it was that it was interesting. Raven shivered. 'Do you expect me to get into my...' Hazel's sidekick!" (If you don't like spoilers - I beg of you, just read the freaking book!) For this tale of Hazel and the Halfling, I'd like to acknowledge the Boy Cals of Dragon Magazine Vol 25. Funny, I had no idea that some internet jerk had snagged my screen name... I think I first saw this somewhere online before I bought the book. It opened as I was reviewing the first two of the Reavers book and somehow I must have skimmed it through and fallen for it. This was the first pre-publication story I read, and I was pretty much giddy (except for when Hazel thought Tom was dead). It made me want to read some adventure books just as bad as I did during my THACO era. (Still do.) I was a little 'impressed' that he could write this back in 1992. Back then, I had this misconception that he didn't hold a law degree, he was just some scruffy basement dweller who listens to punk and breathes Game Boy cartridges through his nose. Then The Barrow-Downs Saga was published and it all made sense...

We were originally going to have an extra character down there, but the Simpler Times 12 ed was never completed. But, now you can read/enjoy the first few chapters from it. What is the Under-Realm? The Under-Realm is the home of the Old Gods, but everyone knows them as demons. They're really the origin of the Heroes that keep us all safe. They are the ones that protect us from invisible monsters. They are our policemen (and witnesses when necessary). They are our better angels. But, because of the demon that drifts forth from them at night, they have been hunted down and forced out of the place of their birth, to the Under-Realm below the world of Greyhawk. Now, there are gems of what the Gods worshipped when they once were in the shallow seas, so the Old Gods must constantly strive to keep their breaths above the waterline...and they don't breathe that well. The upper world water is a
